

a. QUALITATIVE DISCLOSURE ON BANK'S LIQUIDITY

- **Liquidity Coverage Ratio:** The LCR standard aims to ensure that a bank maintains an adequate level of unencumbered High Quality Liquid Assets (HQLAs) that can be readily converted into cash at little/no loss of value to meet its liquidity needs for a 30-calendar daytime horizon under a liquidity stress scenario.

LCR has two components:

- i. The value of the stock of High Quality Liquid Assets (HQLA) as a *Numerator*.
- ii. Total Net Cash Outflows: Total expected cash outflows minus Total expected cash inflows, in stress scenario, for the subsequent 30 calendar days as a *denominator*.

Definition of LCR:

Stock of high quality liquid assets (HQLAs) \geq 100% (w.e.f 01.04.2021)

Total net cash outflows over the next 30 calendar days

The Liquidity Coverage Ratio arrived for the quarter ended December, 2023 was 123.58% (on basis of simple averages of daily observations during the period 01-10-2023 to 31-12-2023) against the regulatory requirement of 100%

The main drivers of LCR of the bank are High Quality Liquid Assets (HQLAs) to meet liquidity needs of the bank at all times and basic funding from retail and small business customers.

Composition of High Quality Liquid Assets (HQLA)

HQLAs comprises of Level 1 and Level 2 assets. Level 2 assets are further divided into Level 2A and Level 2B assets, keeping in view their marketability and price volatility. Total weighted value (average) of HQLA for the quarter ended December, 2023 is Rs. 2741209 Lakh.

Break-up of daily observation Average HQLA during quarter ended December 31, 2023 is given hereunder:

High Quality Liquid Assets (HQLAs)	Average % age contribution to HQLA
Level 1 Assets	
Cash in hand	1.77%
Excess CRR balance	0.27%
Government Securities in excess of minimum SLR requirement	20.41%
Government securities within the mandatory SLR requirement, to the extent allowed by RBI under MSF (presently to the extent of 2 per cent of NDTL)	8.45%
Marketable securities issued or guaranteed by foreign sovereigns having 0% risk-weight under Basel II Standardized Approach	0.00%
Facility to avail Liquidity for Liquidity Coverage Ratio –FALLCR (presently to the extent of 16 per cent of NDTL)	67.58%
Total Level 1 Assets	98.48%
Total Level 2A Assets	1.48%
Total Level 2B Assets	0.04%
Total Stock of HQLAs	100.00%

14	Total Net Cash Outflows		2218152
15	Liquidity Coverage Ratio(%)		123.58%

b. QUALITATIVE DISCLOSURE ON NET STABLE FUNDING RATIO

The NSFR is defined as the amount of available stable funding relative to the amount of required stable funding. "Available stable funding" (ASF) is defined as the portion of capital and liabilities expected to be reliable over the time horizon considered by the NSFR, which extends to one year. The amount of stable funding required ("Required stable funding") (RSF) of a specific institution is a function of the liquidity characteristics and residual maturities of the various assets held by that institution as well as those of its off-balance sheet (OBS) exposures.

Minimum Requirement of NSFR should be equal to at least 100% on an ongoing basis

$$\text{NSFR} = \frac{\text{Available Stable Funding [ASF]}}{\text{Required Stable Funding [RSF]}} > 100\%$$

The minimum NSFR requirement set out in the RBI guideline for the standalone Bank and for Group is 100% w.e.f 1st October, 2021.

As on 31st December, 2023, PSB maintained weighted Available Stable Funding (ASF) of Rs.10667641 Lakh against the weighted Required Stable Funding (RSF) of Rs. 8776746 Lakh. The NSFR for the quarter ended December 31st, 2023 was at 121.54%

Net Stable Funding Ratio for Quarter Ending 31.12.2023

					Amount in Rs. Lakh		
S,NO	A.	Components of ASF category (liability categories)	Unweighted Amount	Associated ASF factors	Weighted Amount		
1	i.	Total regulatory capital (excluding Tier 2 instruments with residual maturity of less than one year)	1580001.30	100%	1580001.30		
2	ii.	Other capital instruments with effective residual maturity of one year or more	0.00	100%	.		
3	iii.	Other liabilities with effective residual maturity of one year or more	142935.00	100%	142935.00
